

## Cupples' J&J Forming and Rolling

Cupples' J&J Company provides Forming with Conventional and CNC Brake Presses and Stamping Presses.

### Cupples J&J Company has Forming Equipment as follows;

14 each - CNC Brake Presses with up to 5 axis forming x 12 feet and up to 250 tons.

1 each - 400 Ton CNC Straight Side Gap Frame Hydraulic with 3 axis cnc back-stop

4 each - Conventional Brake Presses with up to 330 tons x 10 feet.

3 each - OBI Type Stamping Presses with up to 95 ton x 55 strokes per minute or 70 tons x 100 strokes per minute

6 each - 3 Roll Pyramid Type Roll Forming Machines

1 ea - Davi CNC 4 Roll Rolling Machine

1 ea - Kohler Leveling Machine with .240 thick x 10.3" width capacity

1 each - 100 Ton Angle, Channel and Beam Rolling Machine

### See Examples of Cupples Formed Parts below;

The Forming Areas are also supported by Laser Cutting , CNC Punching , Robotic Welding, Machine shop , Screw Machine and General Sheet Metal Fabrication Divisions. Cupples' J&J could fabricate single parts up to entire assemblies.
